The Stragglers raised £8,886 for The Purple Elephant Project between January 2024 and January 2025. This funded 172 therapy sessions and providing vital, long-term support for eight children facing significant challenges including:

- Refugee trauma and anxiety
- Bereavement and loss
- Mental health struggles due to family separation
- Medical trauma and PTSD
- Severe anxiety affecting sleep, home life, and school engagement

This funding has enabled both fully funded and subsidised therapy for these children, some of which is ongoing. All have shown a reduction in symptoms, gaining confidence, managing emotions more effectively, and re-engaging with daily life, including school. Parents also report feeling better equipped to support their children.

The entire team at The Purple Elephant Project is deeply grateful to The Stragglers for their generosity. Your support has made a real difference, thank you! We look forward to continuing our relationship and building on this impact this year.
